Server & SQL 2008 EOS Migration

Accelerator.

MIGRATE LEGACY APPLICATIONS TO THE CLOUD AT PACE.

ANS' Migration Accelerator delivers a comprehensive migration service that enables the transition of legacy services within weeks. Utilising a combination of ANS' market leading Assessment and Migration Services, the service ensures servers and services can continue to operate in a supported state on the Azure platform.

The Migration Accelerator provides an enterprise grade, packaged migration service that combines assessing, planning and transitioning standalone services into Microsoft Azure using proven tooling and processes:

Pre-Assessment
