

# Catalyst Navigator

ANS

Think Bigger.

# What are ANS navigators?

Navigators are complimentary engagements that provide you with the resources and information to be able to realise your long-term strategic vision and steer your digital transformation journey.

# What is the Catalyst Navigator?

Our Catalyst Navigator is designed to help you build, plan and execute business transformation strategies. It's made up of a 3-stage process which includes Envisioning, a Business Value Assessment and a Solution Assessment, designed to help you understand and prepare for disruptive changes that can impact your business and help you develop an actionable plan designed around your digital vision.

# Who is this suitable for?

This Navigator is ideal for organisations that want to move to cloud using O365, or other Microsoft technology. It's also suitable for organisations using on-premises or legacy line of business applications.

## Compatible Navigators

Business process navigator

# What will this navigator enable you to do?

We are an accredited Microsoft Catalyst partner, which means we have been trained by Microsoft to support organisations through a series of workshops, follow up review and feedback sessions. These will be tailored to your specific needs, taking you from identifying a challenge, to a solution idea, right through to an executable business initiative with strong commercial viability evidence at every stage of the process. We will also measure ROI over the life of the project and 12 months after completion.

## 1. Identify challenges & envision solutions

We'll work with your IT and business stakeholders to gain an in-depth understanding of your challenges. From there we map out how we can turn a problem into a solution while helping you to envisage the solution being implemented and the value it will bring to your organisation.

## 2. Prioritise your business outcomes

We'll help you to prioritise your business outcomes based on your objectives and opportunities for improvement.

## 3. Qualify your key metrics for success

And agree desired financial improvement levers.

## 4. Statement of work

We'll estimate budget for the realisation of your future solution and deliver this back to you in a fully costed SOW.

# What are the benefits of using an ANS Navigator?

## Rapid time to value

It typically takes 4-6 weeks to complete this Navigator, and usually doesn't require more than 10 hours of your time spread over those weeks.

## Full business case preparation

We will provide you with board-ready outputs, a strategy document, business case and presentation.

## Insights and recommendations

We'll provide insights and recommendations to help you build, plan and execute business transformation strategies.

## Board ready outputs

We will provide you with board ready outputs, a strategy document, business base and presentation.
