

Migrating Citrix to Azure

When you're ready to bring your digital ambitions to life, we're here to make it happen.

Cloud is the initial catalyst which can arm you with the power to drive extraordinary transformation but neglecting to migrate your virtual desktop infrastructure could be holding you back from achieving your digital ambitions.

ANS' team of dedicated cloud migration specialists can support your move to Microsoft Azure and enable you to easily migrate Citrix to the cloud - empowering you to improve productivity, cut costs and drive operational efficiencies.

"57% of IT teams realise the efficiencies of Citrix on Azure and state that they're left with more time to focus on VDI developments"

IDC

But the benefits don't end there...

Increase productivity

Gain the flexibility and convenience of being able to deliver new and graphical intensive applications as well as an improved Office 365 experience.

Improve End User Experience

By utilising the Azure infrastructure and connectivity, end users can benefit from quicker and easier access to their desktop and applications.

Reduce Infrastructure Costs

The flexibility of Azure means organisations can build an environment that scales dynamically with their needs, reducing the need to invest in on prem hardware.

Simplify and speed up upgrades

Upgrade to the latest versions of Citrix and Windows, while avoiding new hardware investments.

Focus on driving business value activities

By hosting your Citrix services on Azure, and eradicating the need for physical servers, your IT department will no longer need to spend time updating software, provisioning and deploying devices manually and monitoring the security of your infrastructure.

What are you waiting for?

Understanding your goals, use cases, and data location is crucial to the success of any DaaS solution. Therefore, when migrating from Citrix VDI to Citrix on Azure, it's important to focus on specific business outcomes and ensure you build a clear roadmap to adoption. To help you determine your business case for migration, we invite you to a **complimentary pre-sales workshop** to help you better understand your ROI.

Migrate your Citrix services to Azure today, and make your business leaner, agile, and more cost-competitive.

MEANS BUSINESS. [ANS.co.uk](https://www.ans.co.uk)
