1.2. Incident Management

1.2.1. Incident Priority Table:

| Affect | Business Impact | | | |
|-------------------------|-----------------|----------|-------|--|
| | Minor | Moderate | Major | |
| System/Service Down | P3 | P2 | P1 | |
| System/Service Affected | P4 | P3 | P2 | |
| User Down/Affected | P5 | P4 | P3 | |

1.2.2. Incident Response and Escalation Table:

| Priority | Response SLA | Specialist Review | Escalation Manager | Escalation Director/Vendor | Notification Frequency | Target Resolution KPI |
|----------|-----------------|----------------------|-----------------------|-------------------------------|---------------------------|--------------------------|
| P1 | 30 Minutes | 1 Hour | Immediate | Immediate | Hourly Email | 4 hours |
| P2 | 1 Hour | 2 Hours | 4 Hours | 6 Hours | GLASS Portal | 1 Day |
| P3 | 4 Hours | 1 Day | 2 Days | None | GLASS Portal | 10 Days |
| P4 | 1 Day | Never | Never | None | GLASS Portal | 30 Days |
| P5 | 2 Days | Never | Never | None | GLASS Portal | None |

For an Incident, "Response" is the time from when the ticket is first logged within the ANS ITSM Tool to the time that the Supplier responds with a suitably qualified Employed person whether via an email, GLASS Portal update, telephone call or in person. For detailed process flow see the current Managed Services Handbook. Support to provide a resolution shall be provided within Service Hours from the time of Response until the Incident has been resolved.

From the time of Response until resolution, updates shall be provided to the Named Contacts and/or Escalation Contacts by email or GLASS Portal updates at such frequencies as set out in the table above.

1.3. Change Management

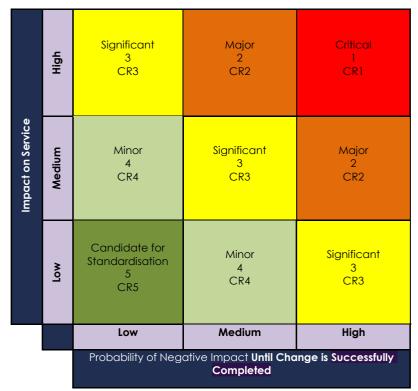

All Changes require a Request for Change (RFC) form to be completed on the Suppliers GLASS Portal and submitted detailing the required Change. The Supplier will reject unapproved or incomplete RFC forms.

Changes will follow the Change Management Process as defined in the ANS Managed Services Handbook. It should be noted that Emergency Changes will only be carried out in the event of a P1 scenario (either pro-active or reactive) and/or a major Security Incident where the Supplier deems appropriate.

- i. Emergency Changes that are not a direct output of a Priority 1 incident may be subject to Additional Service Charges e.g. Poor planning from a Customer Managed Project.
- j. Applications without accurate services information for on-boarding the service will be removed from scope and excluded from on-boarding.
- k. Daily requests for a period of greater than 10 days or a support request taking in excess of 30 minutes to complete will be chargeable. Charges for excessive usage will be calculated at our standard hourly rate.

4. Customer Responsibilities

Including but not limited to:

- a. The Customer shall have an established end user support function that may be validated by the Supplier.
- b. Where required, the Customer shall make available appropriately skilled Employed persons while an Incident is being managed.
- c. The Customer is required to undertake an initial Impact Assessment before logging the Incident with the Supplier. Such Impact Assessment is to include:
 - a. Affected Services
 - b. Business Impact
 - c. Number & Type of users affected
 - d. Recent changes on Supported Assets (regardless of perceived impact)
 - e. The Customer shall check hardware onsite and ensure the hardware has power and cables are connected as expected
 - f. The Customer shall check LED status of equipment where required onsite
- d. The Customer shall provide full administrative access to the Supplier to all the services outlined in the Impact Assessment and any subsequently identified services or provide persons with adequate access to allow investigations to proceed.
- e. The Customer is required to ensure that all Customer Supported Assets are appropriately licenced and have Supplier recommended hardware and vendor support in place.
- f. The Customer is responsible for all configuration backups outside of the Supported Assets without exception.
- g. The Customer is responsible for all data and configuration backups without exception. The Supplier does not backup any Customer data.
- h. The Customer is responsible for completing a Request for Change (RFC) in accordance with the Supplier's Change Management Process.
- i. The Customer shall ensure that all relevant Customer employees have access to and have read the Supplier's Managed Services Handbook.
- j. The Customer shall ensure an on-going availability of suitable Internet connection (if not provided by the Supplier).
- k. The Customer shall ensure 24x7x365 availability of a suitable Escalation Contact should the Supplier need to gain approval for an Emergency Change or to engage other aspects of the Customer's support functions.
- I. The Customer shall provide suitable notice to any planned/scheduled maintenance that could affect the Customer Supported Assets including environmental changes. Failure to do so may result in Additional Service Charges.
- m. The Customer shall request permission from the Supplier in writing in the event that the Customer wishes to change the location of the Customer Assets and/or Supplier Assets from the address specified in the Contract. Any asset that has been moved without notification to ANS will be subject to additional service charges.
- n. If the Customer requires the Supplier to provide onsite hands and eyes support then this will be subject to Additional Service Charges.
- o. It should be noted that the Customer shall report Business Critical Incidents via telephone only. The Supplier cannot offer any Service Levels or Service Credits for Business-Critical Incidents raised via email.
- p. The Customer must be able to provide the Supplier with accurate application and services information in order for the Supplier to successfully on-board the service.
- q. The customer is responsible for deployment of agents to servers, applications or Virtual Infrastructure.
- r. The Customer is responsible for ongoing security reporting and configuration of the platform unless additional service contract is in place for example ANS' Managed Detection and Response managed service.

5. Assumptions

- a. All Customer Supported Assets and Azure Accounts within the Demarcation Zone within this Contract are covered by a valid software maintenance and support agreement in line with this Contract Service Levels.
- b. All Customer Supported Assets are in a Valid Supported Configuration at the point of contract start date.
- c. All Customer specific pre-requisites have been completed before contract commencement.
- d. The Customer will provide a suitable specification platform and operating system for the Enterprise Monitoring collector server.
- e. The Customer will provide resource to work with the Supplier to on-board the service.

6. Pre-Requisites

- a. On-Boarding Health Check and Documentation.
- b. Platform and where applicable WMI access for all patching and monitored services.
- c. Administrative Access Permissions for ANS Engineers on supported Subscriptions / Accounts.
- d. AWS Associated Partner registration.

7. Partner Admin Link

ANS' Managed Cloud for Azure incorporates Microsoft Signature Cloud Support for any issues that require escalation to Microsoft. In order for this to be able to be fulfilled, Microsoft leverage information collected from the Partner of Record (PoR) system to assign back end support rights. As such ANS must be registered as the digital PoR on any Subscriptions that contain or contribute to assets under support or management for the entire duration of the agreement. Consequently, the Customer shall, prior to the Commencement Date arrange for ANS to be registered as the PoR on all Subscriptions that contain or contribute to assets under support or this agreement. The Customer will grant ANS 24 x 7 operational control and management of a customer's Azure resources via any of the following options:

- ANS Global Administrator permissions within the Customer's Azure Active Directory Tenant
- Azure Lighthouse Delegated resource management
- Directory or Guest Users or Service Principals

8. Amazon AWS Associated Partner

Amazon AWS' partnership status is heavily reliant on demonstrating working relationships with AWS consumers, Amazon leverage information collected from the associated partner system to assign partnership status. As such ANS must be registered as the associated partner on any accounts that contain or contribute to assets under support or management for the entire duration of the agreement. Consequently, the Customer shall, prior to the Commencement Date arrange for ANS to be registered as the associated partner on all accounts that contain or contribute to management for the entire duration of the agreement.
