# Security Copilot

Readiness Workshop with ANS

## What is Security Copilot?

Microsoft Security Copilot (Security Copilot) is a generative AI-powered security solution that helps increase the efficiency and capabilities of defenders to improve security outcomes at machine speed and scale, while remaining compliant to responsible AI principles.

Security Copilot is built on AI and provides a natural language model, assistive copilot experience that helps support security professionals in end-to-end scenarios such as incident response, threat hunting, intelligence gathering, and posture management.

## How ready are you for Security Copilot?

Before adopting Microsoft Security Copilot you need to understand if you are ready for it, not only from a tooling and capability perspective but also will your current Cyber Security strategy fit with its adoption.

### Device Management

Security Copilot and Microsoft  
Defender External Attack  
Surface Management

### Identity Management

Security Copilot and Microsoft  
Defender External Attack  
Surface Management

### Data Security

Security Copilot and Microsoft  
Defender External Attack  
Surface Management

### Cloud Security

Security Copilot and Microsoft  
Defender External Attack  
Surface Management

### External Attack Surface Management

Security Copilot and Microsoft  
Defender External Attack  
Surface Management

This ANS delivered workshop provides you with the answers you need, identifying what you need to do in order to be ready for Security Copilot

# Workshop objectives.

Provide an overview of Security Copilot and the benefits.

Where do you need to be with your target architecture, licencing and capability to effectively adopt Security Copilot.

Understand your Cyber Security Strategy.

How will Security Copilot augment your security operations.

Where are you now with your architecture, licensing and capability.

ANS will guide you through where you are and explain the recommended next steps are on your Security Copilot journey.

## What to do next

- ✓ Contact your ANS Account Executive or Account Manager.
- ✓ Arrange a convenient time to carry out the Readiness Workshop which will take up to 4 hours.
