

It's time to upgrade to the global POS your business deserves

Whether you're a global brand or a fast-growing regional chain, you need software that gives you specialized industry benefits while helping you reduce complexity and improve visibility. With LS Central, you can achieve all this – and help your business grow faster without ripping out what already works.

✓ **Keep your operations consistent** across markets, regions, and brands while supporting local fiscal and regulatory compliance.

✓ **Manage mixed business formats** including restaurants, specialty retail, hospitality, fuel sales, pharmacies, entertainment, and appointments on one platform.

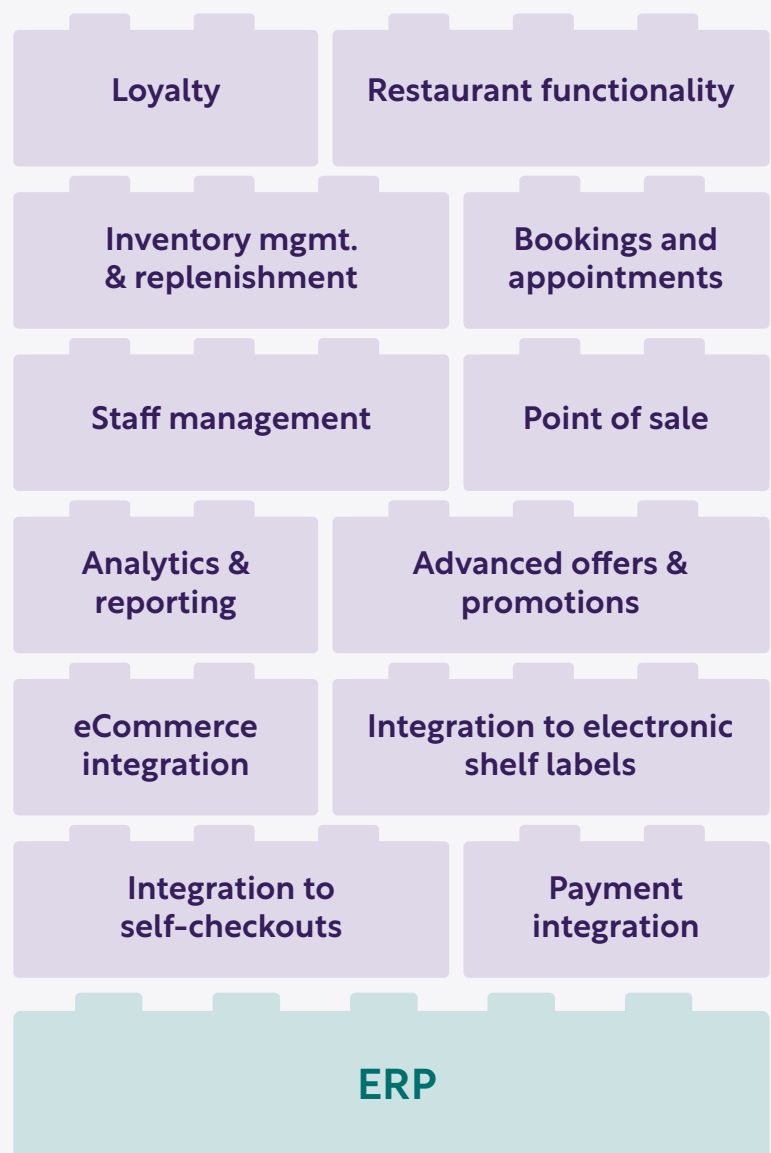

✓ **Access timely, centralized data** from all locations and channels and use this solid base to propel your AI strategy.

✓ **Leverage your existing investments** in ERP, PSPs, hardware, eCommerce, and loyalty platforms by using flexible integration capabilities.

Build the tech stack that fits your retail operations

LS Central works on Microsoft Dynamics 365 Business Central ERP and can be integrated using an integration framework to third-party ERPs such as SAP S/4HANA, Oracle, and Microsoft Dynamics 365 F&SCM. Thanks to its modular design, you can **start with the features** you need and expand your operations **at your own pace**.

LS Retail is a global POS and operations platform provider delivering specialized industry benefits to retail, restaurant, hospitality, forecourt, and pharmacy businesses across 157 countries.
